Visiontree Software: Visiontree

## Cloud Service Provider URL

<https://visiontree.com/solutions/packages/>

## Cloud Service Description (200 words or less)

Visiontree Optimal Care™ (VTOC) v5.0 is a modular, configurable cloud-based patient/provider paperless data management, communication and workflow platform. The cloud-based software package comprises oncology and surgical outcomes for longitudinal collection, research and reporting with monthly or annual subscription services.

Core features include the following:

- Clinical oncology and surgical pathways with pre-built standardized electronic patient reported outcome (ePRO) and electronic case report form (eCRF) assessments
- Automated ePRO Reminder System via Email & SMS
- eForm Kiosk Mode with QR Code Launch
- Roles-Based Form Alerts & Virtual Care Surveillance
- Patient Education Modules
- Point of Care & Intake eForms
- Reporting and Analytics
- ARRA HITECH 2015 MACRA Modular EHR certified, HIPAA and 21 CFR Part 11 compliant
- Comprehensive On-Boarding Services
- 24/7 Support
