## MANDATORY THA/TKA PRO-PM

The hospital-level Total Hip Arthroplasty/Total Knee Arthroplasty (THA/TKA) Patient-Reported Outcome-Based Performance Measure (PRO-PM) **requires the collection of preoperative and postoperative patient-reported outcome (PRO) data** to (I) match to claims data and (II) calculate a risk-adjusted measure outcome. The data elements hospitals will need to collect and submit for each patient for the measure can be found below. CMS plans to implement the THA/TKA PRO-PM through a phased implementation, with two voluntary reporting periods in 2025 and 2026, followed by **mandatory public reporting in 2027. Hospitals that fail to meet the reporting requirement (50%+) receive a reduction in their APU in Fiscal Year (FY) 2028.**

Data Element Type	Preoperative Data Elements	Postoperative Data Elements
Patient-Reported Outcome Measures (PROMS)	THA patients: <b>HOOS, JR</b> TKA patients: <b>KOOS, JR</b>	THA patients: <b>HOOS, JR</b> TKA patients: <b>KOOS, JR</b>
Patient-or-Provider-Reported Risk Variables	<ul style="list-style-type: none"> <li>Mental Health Subscale items from either <b>PROMIS-Global</b> or <b>VR-12</b></li> <li>Health Literacy (SILS2)</li> <li>BMI or Height/Weight</li> <li>Use of Chronic Narcotics</li> <li>Total Painful Join Count: Patient-Reported Pain in Non-Operative Lower Extremity Joint</li> <li>Quantified Spinal Pain: Patient-Reported Back Pain, <b>Oswestry Index Question</b></li> </ul>	N/A
Matching Variables	<ul style="list-style-type: none"> <li>Medicare Provider Number</li> <li>MBI</li> <li>Date of Birth</li> <li>Date of Procedure</li> <li>Procedure Type</li> <li>Date of Admission</li> </ul>	<ul style="list-style-type: none"> <li>Medicare Provider Number</li> <li>MBI</li> <li>Date of Birth</li> <li>Date of Procedure</li> <li>Procedure Type</li> <li>Date of Admission</li> </ul>
PROM-related Variables	<ul style="list-style-type: none"> <li>Date of PRO Collection</li> <li>Mode of Collection</li> <li>Person Completing the Survey</li> <li>Generic PROM Version</li> </ul>	<ul style="list-style-type: none"> <li>Date of PRO Collection</li> <li>Mode of Collection</li> <li>Person Completing the Survey</li> </ul>

## HOW WE SIMPLIFY...

### EXPERIENCE & TRUSTWORTHINESS

Visiontree makes developing or improving your patient reported outcomes (ePRO) program easy, with over 20 years of experience in the ePRO field and 600+ live sites globally.

### HIGH COMPLIANCE RATE

Visiontree provides a trusted platform that has proven to maintain 80% compliance out to one year, which is crucial given the 50% submission requirement.

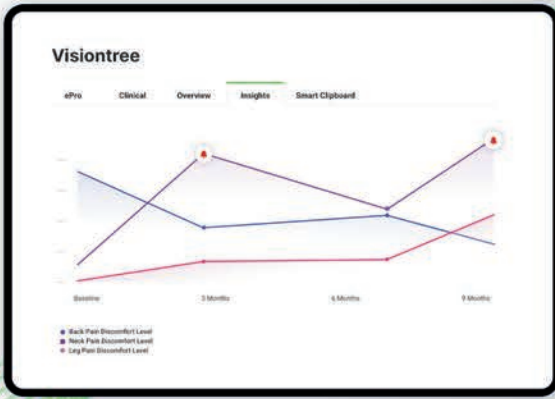

### AUTOMATION & INTEGRATION

Visiontree automates workflows embedded in leading EHRs (Epic, Cerner) and reminders manage most of the work, so you don't need to worry about adding additional staff for it.

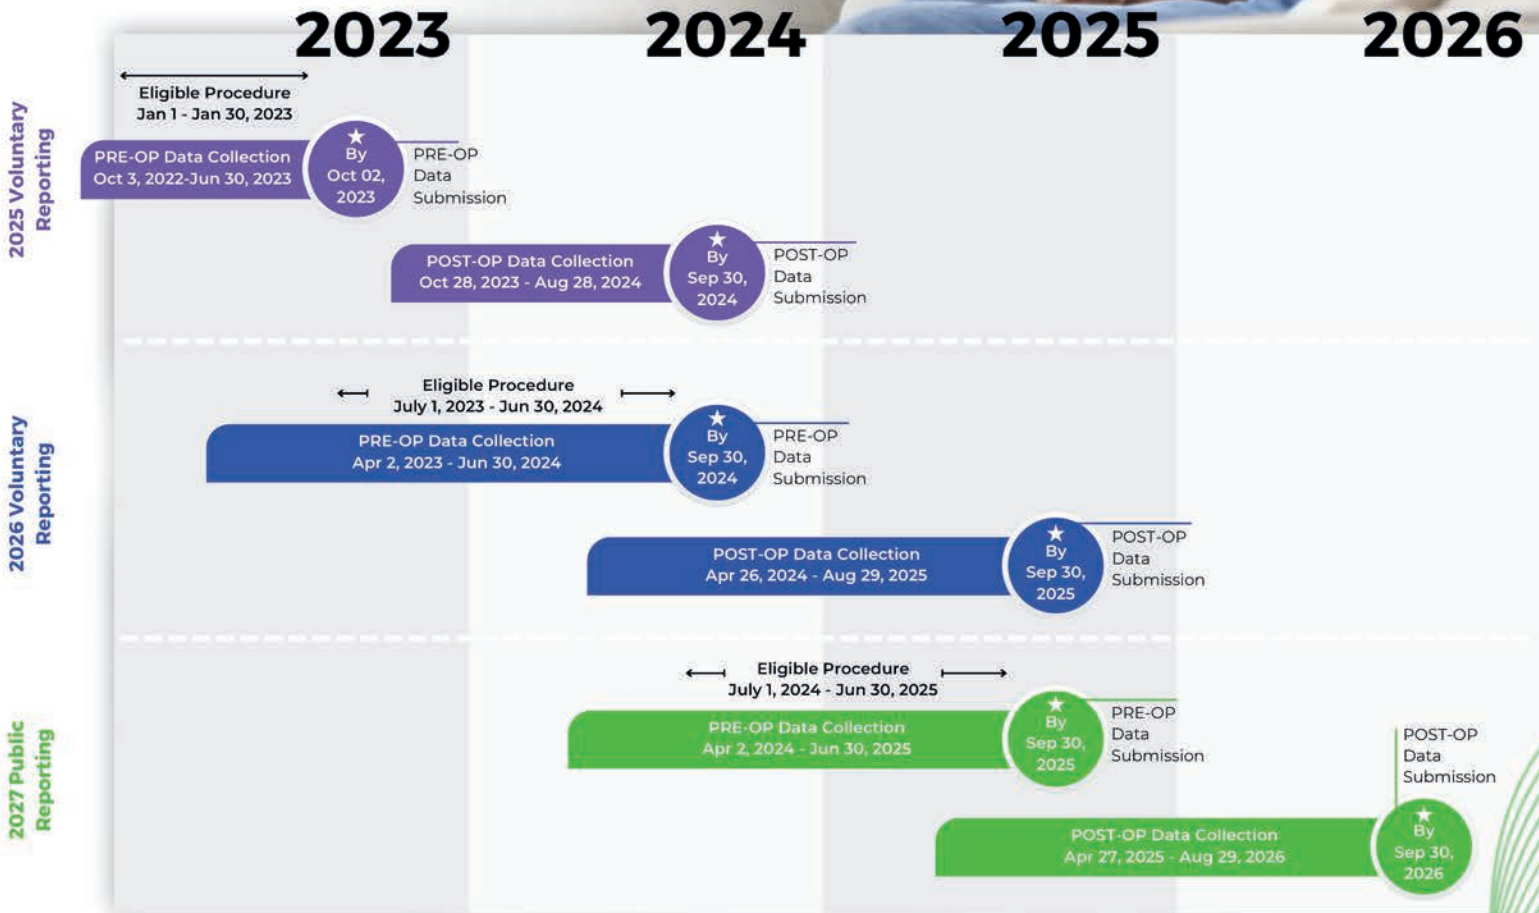

### DATA EXPORT & INTEROPERABILITY

Offers easy access to data exports tailored to value-based care reporting requirements. It leverages advanced SMART on FHIR® technology for standards-based interoperability, simplifying implementation and providing a seamless workflow for users.

# WHAT IS THE PRO-PM TIMELINE?

The timeline below highlights important dates for data collection and submission associated with the eligible elective, primary THA/TKA procedures for the upcoming voluntary and mandatory reporting periods of the total hip arthroplasty/total knee arthroplasty (THA/TKA) Patient-Reported Outcome-Based Performance Measure (PRO-PM).

## MORE INFORMATION

Additional information can be found in **Approaches to PRO data collection in the THA/TKA PRO-PM Reporting: Key Information and Resources** document on QualityNet.
